

Capabilities Statement

WHO WE ARE

Vehicle Maintenance Program, Inc. (VMP) is a force in the industry—breaking barriers and redefining standards as a 2nd generation a Woman-Owned Small Business (WOSB). Our unwavering commitment to quality, competitive pricing, and exceptional service distinguishes us.

We offer an extensive range of high-demand and hard-to-find parts, ensuring the warfighter has what they need—when they need it. From critical components to specialized equipment, our robust product lineup and mission-ready support solutions are tailored to meet the evolving needs of military operations and sustain mission readiness at every level.

VMP is an ISO:9001 certified trusted partner for organizations supporting military operations and vehicle maintenance initiatives. As a Woman-Owned Small Business, we combine proven quality, competitive pricing, and logistics expertise to deliver reliable, mission-focused solutions. Our performance has earned the confidence of both State and Federal clients as well as large fleets across a range of defense and readiness programs.

CORE COMPETENCIES

Comprehensive Vehicle Parts Supply

- High-volume sourcing of mission-critical and specialty vehicle components
- Extensive inventory to support tactical and non-tactical platforms
- Streamlined procurement and fast-turnaround fulfillment

Defense Logistics & Supply Chain Management

- End-to-end logistics and delivery coordination, CONUS and OCONUS
- Compliance with FAR, DFARS, DLA, and DIBBS procurement protocols
- Reliable, trackable, and secure shipment solutions

Maintenance Program Support

- Support for PMCS, depot-level, and field maintenance programs
- Lifecycle sustainment planning and part availability alignment
- Direct coordination with unit-level maintenance personnel

DIFFERENTIATORS

- Proven performance with DoD and U.S. Army readiness programs
- 20+ years of experience supporting TACOM and DLA vehicle systems
- Proprietary database of over 50,000 mil-spec components
- Ability to adapt to changing military needs and priorities.
- Understand and comply with mil-spec packaging
